

says you are not required to kill all these prairie dogs on your place, but it doesn't say you can't. So if you still have a problem with horses stepping in prairie dog holes, well, you can...you can eliminate the prairie dogs on your property. And I guess that, Senator Crosby, I wasn't aware that they were called schools, I thought they were called towns, but maybe they're going to get an education along with this. Is that right? Thank you.

SENATOR LANDIS: Thank you, Senator Dierks. Senator Kristensen's light is on.

SENATOR KRISTENSEN: Thank you, Mr. President. I do not, Senator Crosby, want to take any of your time. I would wonder if you would take a friendly amendment because a lot of the lobbyists in the back look like little prairie dogs up against that glass and I was wondering if we could...some of them winter pretty well, but I was wondering if we could put them in the exclusion and the eradication mold as well.

SENATOR LANDIS: Thank you.

SENATOR CROSBY: You can...

SENATOR LANDIS: With that last light and having worn down the Agriculture Committee, Senator Crosby, you are entitled to close on the advancement of LB 87.

SENATOR CROSBY: Thank you. I will waive closing. We all came alive on my bill. Right? Thank you.

SENATOR LANDIS: Those in favor of the advancement of LB 87 vote aye. Those opposed vote no. If you're close to your desk, please return, cast your ballot for or against the measure so that we can dispose of this issue. Mr. Clerk.

ASSISTANT CLERK: 25 ayes, 0 nays on the motion to advance LB 87 to E & R Review.

SENATOR LANDIS: The body has shown great discipline today. We've only had one call of the house all morning long. I think that's really to our credit. We're moving well. And our Vice Chairman of the Health Committee will be the introducer of the next measure, or at least the committee amendments. Mr. Clerk, tell us about LB 448.
